

The beauty of America is the ability to vote for those we want to represent us. Being elected as a Del Norte County Unified School District Board Trustee, I am honored to represent District 2 and the community. My first term faced many challenges:

Retirement of a superintendent, search for a new one, and the refurbishment of Del Norte High School - all while trying to stay on budget. I continue to advocate for transparency in our schools, and effective communication with the community, striving to ensure that all voices are heard.

This term has had its challenges. I admit I have not been as present in the schools this past year as I hoped, due to family and health challenges. In spite of these challenges, I strive to stay accessible in person, via phone, email, or social media. I actively listen and gather information to ensure that I make the most informed decisions, knowing that they impact our families and community.

My heart's passion is to see all our students reach their full potential. While I, alone, might not be able to solve all the problems in our community, I know that together we can work towards solutions.

Do I have flaws? Yes.

Do I strive to listen, question, and treat everyone with respect? Yes.

Do I need to be recalled for being "incompetent"? That is for you to decide.

Angela Greenough

Vice-Chair, DNUSD Board Of Trustee - District 2
