

TK-8 DISTANCE LEARNING TIMELINE

WEEK 1 - CONNECTION & PACKETS (MARCH 16 - MARCH 20)

This week was focused on connecting with students and families, assessing technology access, and providing grade level work packets. Teachers checked in with families and work packets were distributed. Our goal was simply to check in with every student and see how they were doing.

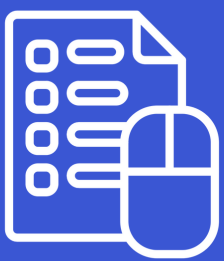

WEEK 2 - PACKETS & OFFICE HOURS (MARCH 24 - MARCH 27)

This week another packet of grade level work will be distributed (also available at www.dnUSD.org/covid19) for grades TK-8.

Teachers will meet and plan both digital and paper lessons (for the following weeks) that focus on the same grade level standards. Teachers will also post office hours this week and will be reaching out to families to check in.

WEEK 3 - TRANSITION TO DISTANCE LEARNING (MARCH 30 - APRIL 3)

Beginning March 30th all grade levels will transition to distance learning. Teachers will be posting grade level lessons in both formats: digital and paper (available at www.dnUSD.org/covid19). We will continue to distribute packets on buses, at sites, and at the district office.

WEEK 4 AND BEYOND... (APRIL 6 - APRIL 10)

Currently, we are prepared for school closure until the end of spring break. This would have your children back in class on Monday, April 20th. However, we are going to prepare distance learning beyond that date, in case we end up out of school longer.
